Nikita Kharlamov

Focus of Cultural Psychology

- Psychological processes are constituted and conditioned by **practices, artifacts** and **communication**.
- **Broad perspective** in psychology that sensitizes us to studying the formative role of **culture and context** in human lives
- Psychology is today **expanding into different fields**. Broad-minded and flexible psychologists will be needed to fill these new positions.
- Cultural psychology provides us with **flexible tools** to intervene in a **world that is increasingly multicultural and global**.
